2nd EDITION

INTERMEDIATE EQUINE ARTHROSCOPY COURSE

Second Intermediate Equine Arthroscopy course developed in Europe, which aims to provide equine surgeons and surgery residents with in-depth training to be able to perform the different approaches to the joints, sheaths and bursa described in the program. There will be sufficient cases to work- through the training course.

DESCRIPTION

Second Intermediate Equine Arthroscopy course developed in Europe, which aims to provide equine surgeons and surgery residents with in-depth training to be able to perform the different approaches to the joints, sheaths and bursa described in the program. There will be sufficient cases to work- through the training course.

The panel of internationally renowned speakers will share their wide experience in this field.

The course will be held at the monumental city of Granada in the South of Spain, one of the most visited cities in Spain, famous for its fascinating remnants of Spain 's Moorish past.

OBJECTIVES

General:

Acquire knowledge and skills to perform intermediate equine arthroscopy.

Specifics:

01. Know the instruments and material to perform equine arthroscopy
02. Know the basic technique of arthroscopy as a diagnostic method
03. Know the arthroscopy technique as a therapeutic method. Surgical Approach.
04. Acquire skills to perform diagnostic and therapeutic equine arthroscopy.
05. Know the clinical cases that can benefit from arthroscopy.

CONTENT BLOCKS

01. Instrumentation and materials.
02. Basic of arthroscopy technique. Arthroscopy, tenoscopy and bursoscopy as a diagnostic. Diagnostic imaging of the fetlock, carpus, stifle and hock of routine and complicated cases.
03. Arthroscopic surgery of the Carpus
04. Arthroscopic surgery of the Tarsocrural joint
05. Arthroscopic surgery of Fetlock joint
06. Tenoscopy of the Digital Flexor Tendon Sheath
07. Arthroscopic surgery of the Stifle (Femoropatellar and Femorotibial joints)
08. Arthroscopic surgery of the Distal Interphalangeal joint
09. Bursoscopic surgery of the Navicular Bursa

Modality
Face-to-face

Teaching hours
15,5 face-to-face

Number of places
24 by edition

Addressed to
Veterinary Medicine Professionals

Date
21st and 22nd March 2024

Metodology
Experimental Surgical Training

Surgical stations
8 work-stations / **3** students each with horse limb

Place
IAVANTE Advanced Clinical Simulation Centre. Granada - Spain

TEACHING STAFF

Organization: David Argüelles

Ann Martens

DVM, PhD, Dip. ECVS. University of Ghent, Belgium

Fabrice Rossignol

DVM, Dip. ECVS. Equine Clinic de Grosbois, France

Luis Rubio-Martínez

DVM, PhD, Dip. ECVS. Sussex Equine Hospital, UK

David Argüelles

DVM, PhD, Dip. ECVS. University of Córdoba, Spain

SCHEDULE

DAY 1

Schedule	Sessions/Teaching Units
8:30	Welcome.
9:00	Instrumentation and materials.
9:30	Basic of arthroscopy technique. Arthroscopy, tenoscopy and bursoscopy as a diagnostic. Diagnostic imaging of the fetlock, carpus, stifle and hock of routine and complicated cases.
10:00	Coffe-Break.
10:30	Arthroscopic surgery of the Carpus (including lecture and practice).
12:00	Arthroscopy surgery of the fetlock joint (dorsal and plantar) - including lecture and practice.
13:30	Lunch.
14:30	Arthroscopy surgery of the distal interphalangeal joint (including dorsal and plantar approach) and bursoscopy of the navicular bursae – including lecture and practice.
16:30	Coffe-Break.
17:30	Clinical cases discussion related with the joints/bursa of today.
19:00	End of the day 1.
20:00	Get together dinner.

DAY 2

Schedule	Sessions/Teaching Units
8:00	Tenoscopy of the Digital Tendon Sheath (including lecture and practice) and manica flexoria resection.
10:00	Coffe-Break.
10:15	Arthroscopy surgery of the tarsocrural joint - dorsal and plantar (including lecture and practice).
11:45	Arthroscopy surgery of the Stifle joints (including lecture and practice).
13:45	Lunch.
15:00	Clinical case discussion related with the joints and tendon sheath of today. Interactive discusión clinical case series.
17:00	End of the course.
